

**BRICS**  
Business Council

**SABBC**  
**Energy and Green Economy Working Group**

# Approach

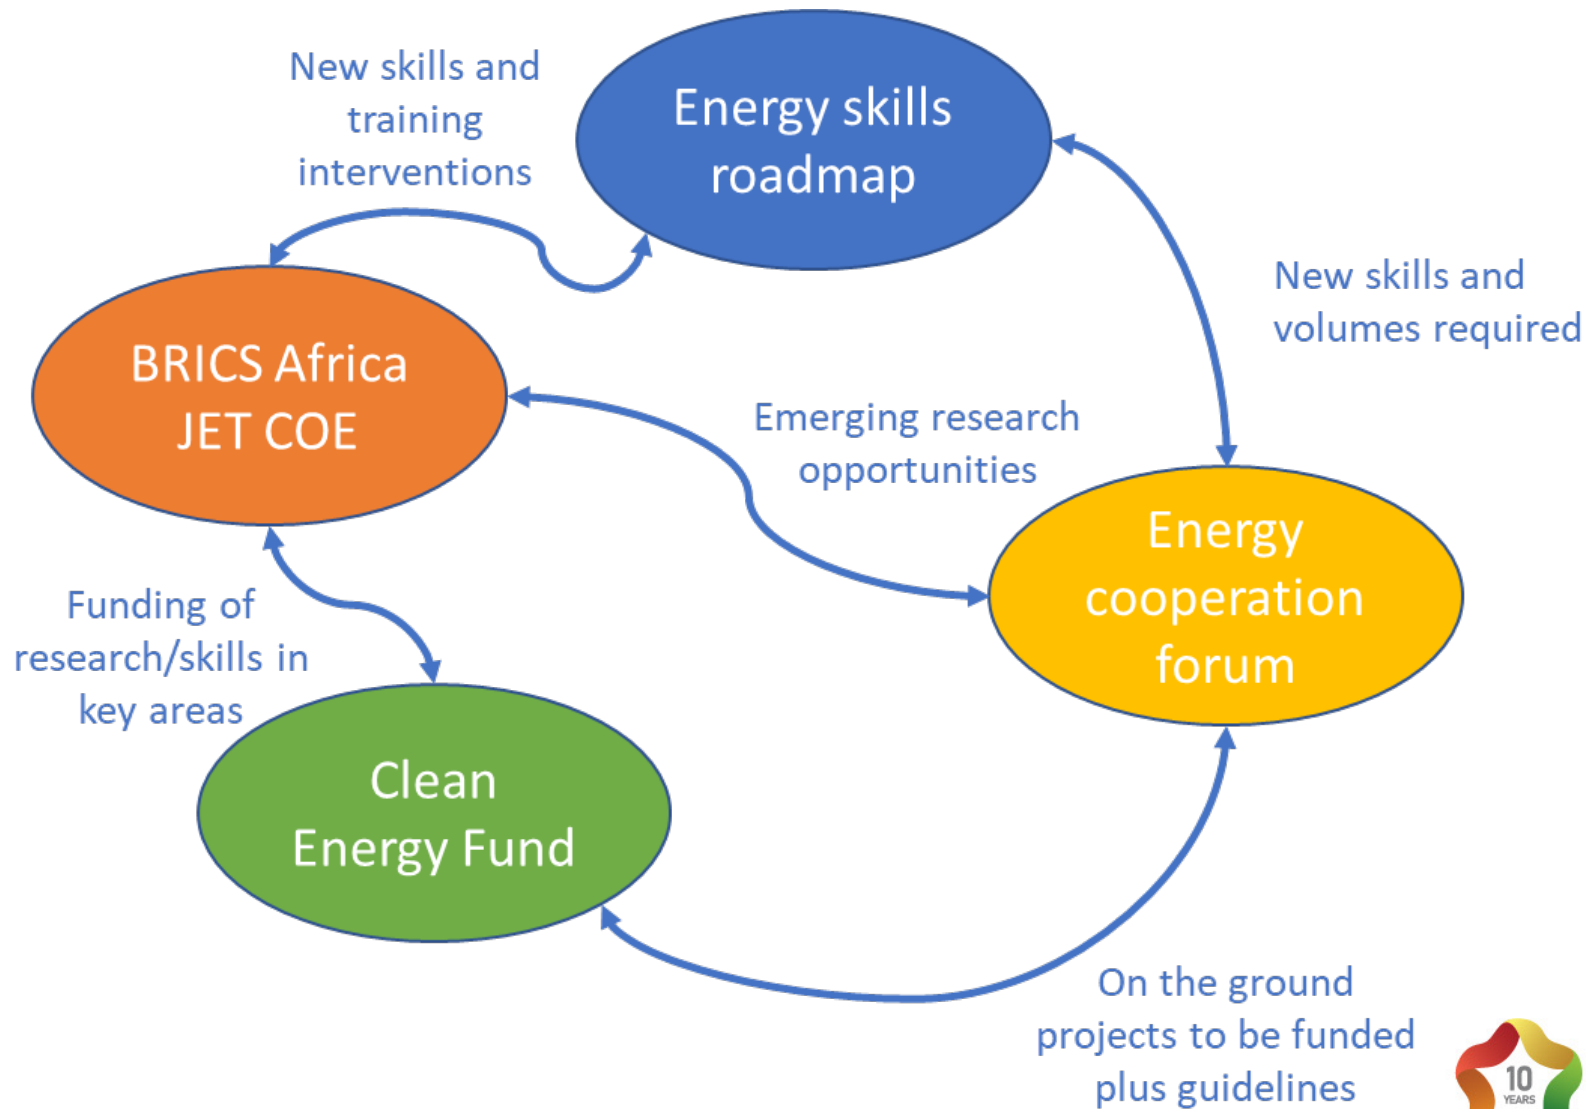

- Based on the outcomes of the 10 year review:
  - Rolling 5-year work programme recognising key issues related to energy's critical role in economic growth and investment eg:
    - Making information available
    - Innovation in key areas
    - Funding to drive the energy transition and
    - Collaboration and partnership to leverage African and BRICS strengths
  - Concrete outcomes focussed on annual events and institutionalising effort eg centres of excellence, investment funds etc
  - Linkages to other working groups to prevent duplication and leverage synergies
  - Balance of policy and project interventions

# Four Major Interconnected Workstreams

INITIATIVE	DESCRIPTION
<b>ENERGY SKILLS ROADMAP</b>	Developing a BRICS Energy Skills Roadmap that builds on the work done in South Africa and ultimately a BRICS Energy Skills Atlas
<b>BRICS AFRICA JET CENTRE OF EXCELLENCE</b>	Establish the African BRICS African JET Centre of Excellence develop a network with academic and other institutions in Africa and the BRICS countries and in the longer term, an independent agency providing energy sector analysis, data and statistics, policy recommendations to promote clean sustainable energy technologies and societal climate change initiatives
